BUREAU OF STATISTICS

February 2009

1 Consumer Price Index (CPI), All Items, 2002 = 100

Month	CPI	Annual Rate of Inflation	
Whitehorse			
Feb '09	113.7	3.3%	(Feb '08 to Feb '09)
Jan '09	113.0	2.4%	(Jan '08 to Jan '09)
Feb '08	110.1	2.6%	(Feb '07 to Feb '08)
Canada			
Feb '09	113.8	1.4%	(Feb '08 to Feb '09)
Jan '09	113.0	1.1%	(Jan '08 to Jan '09)
Feb '08	112.2	1.8%	(Feb '07 to Feb '08)

Comparing the month of February 2009 with February 2008, the **annual** rate of inflation in Whitehorse (3.3%) was 1.9 percentage points higher than the **annual** rate of inflation in Canada (1.4%). This is the twentieth consecutive month that Whitehorse has been higher than the national rate.

On a **monthly** basis, in Whitehorse (figures for the Yukon are not available) overall prices **increased 0.6%** from January to February 2009.

Major **monthly increases** were seen in the following CPI commodities:

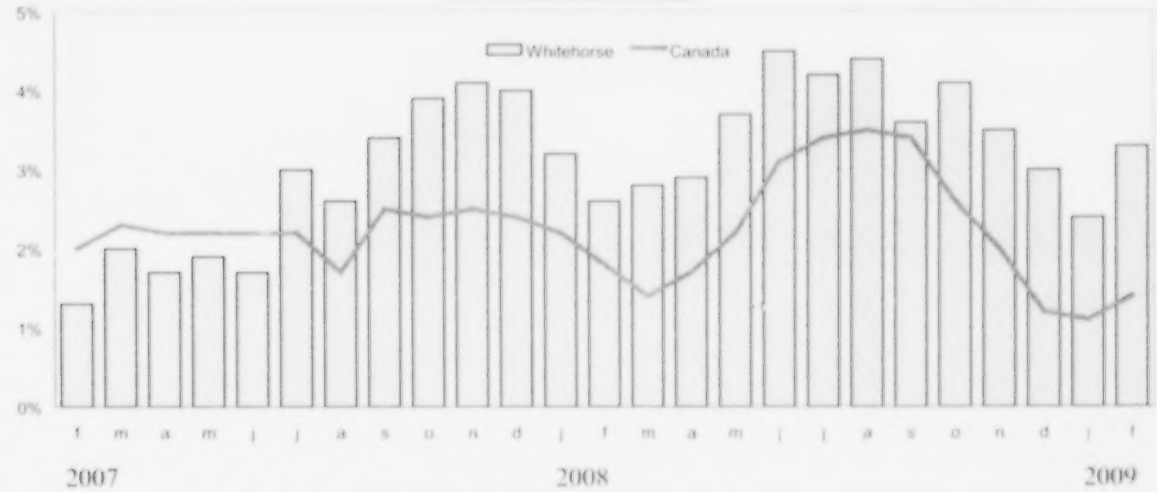
- gasoline
- water
- passenger vehicle insurance premiums

Some of the major **decreases** partially offsetting **monthly** increases were:

- fresh fruit
- furniture
- bakery products

Annual increases for Whitehorse in February were again in mortgage interest cost, rent, and cigarettes. Offsetting some of these **annual** increases were decreases in gasoline, purchase and leasing of passenger vehicles, and fuel oil and other fuels.

Inflation Rate



Each bar represents a month of the year, with the first letter of the month's name listed below the bar.

The Consumer Price Index (CPI) is produced on a monthly basis by Statistics Canada. The data used to determine the CPI are collected by survey and the results are released in Statistics Canada publication The Consumer Price Index, catalogue no. 62-001. The Index is used to determine price change (inflation) in a given city or province over time. In order to calculate the inflation rate in an area, an index for two time periods is required. The percentage change in this index from one point in time to the next is known as the 'rate of inflation' (or 'rate of deflation' if there is a decrease).

The current official time base of the Consumer Price Index (CPI) is 2002 = 100.
